

Application Serial No. 10/716,341  
Response to Restriction Requirement dated July 28, 2005  
Reply to Restriction Requirement dated June 30, 2005

**Remarks**

In the Restriction Requirement, the Examiner restricted the invention into two groups; namely, Group I drawn to a dynamic micro-structure reflector, classified in class 359, subclass 212; and Group II drawn to a method of making a dynamic micro-structured reflector, classified in class 359, subclass 900. According to the Examiner, Groups II and I are related as process of making and product made.

By this communication, Applicants elect, without traverse, the invention of Group I, corresponding to claims 1-13. Applicants have canceled the non-elected claims 14-23.

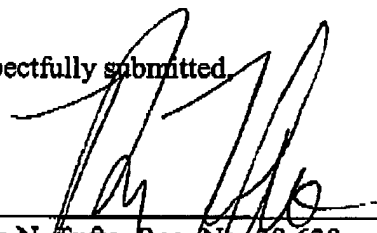

Applicants have added new claims 24-33, which are directed to a dynamic micro-structure reflector apparatus. Applicants believe that the newly added claims are in the elected Group I.

If the Examiner would like to discuss the application or its examination in any way, please contact the undersigned attorney at (612) 359.9348.

Respectfully submitted,

Dated:

July 28, 2005
